Committee Reports

- Land Committee Report- Louis Martino was added to the land committee.
- Committee could use more help mowing and weed eating this summer. No report on aggregate or grass seed.
- Ron Schneider reported back on his inquires into building on the club property. We can build but we need engineer plans for a building to submit to the town with the actual building application. Marc Martino will talk to his cousin and see if he can provide help with plans. Marc will report back. Jake also asked again about more grass seed for the bare areas and more stone to spread around the circle. Dave Secor brought up expanding the electrical service to the camping area and into the large tent for plugging in other appliances. Ron Schneider suggested we hold on those items until we decide where and how we would build a permanent structure. It was decided to put in an underground conduit to feed the electric cords to camping area until a permanent plan is in place.
- T-Shirt Committee –shirt order is in and Joyce will pick
- Trailer Committee - Troy Kay, Rocky Failing and Dave Reinckin- trailer lights are not working properly, Matt will try to fix.
- Bike Committee – bike has been cleaned by Matt, there should also be a trickle charger in the trailer. Will try to find it or possibly buy one to carry in the trailer.
